

Medical Boxta

Infection Control Task Chair

Introducing the Gregory Medical Boxta, a specially designed chair for hospital use that prioritises infection control without compromising on comfort or durability. The Medical Boxta Chair sets a new benchmark in healthcare seating solutions by ensuring the highest standards of hygiene and cleanliness.

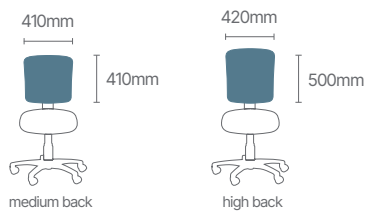

Gregory Medical Boxta Elevating Hygiene, Comfort, and Safety in Healthcare

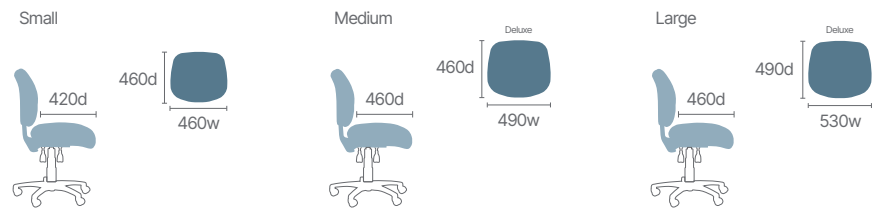

Designed and manufactured in Australia, the Gregory Medical Boxta Chair is a PC2 Compliant ergonomic chair that features a vinyl upholstery and an under-seat pan known for durability and ease of cleaning. It also includes antimicrobial molded seat foam to inhibit the growth of bacteria, minimising upholstery seams to enhance cleanliness.

This versatile chair is suitable for both clinical and non-clinical areas and is designed with soft tyred friction castors for safety. This mitigates any potential incidents where the chair could roll away during ingress or egress or when unoccupied. Choose the Gregory Medical Boxta for superior hygiene and comfort in healthcare environments.
